Pup Joints

Description

C&C Pup Joints are proudly manufactured in the USA and are constructed of the highest grade of forged alloy steel. Our Pup Joints are pressure tested to 1.5 times the NSCWP and made using only the highest grade of domestic pipe.

C&C Pup Joints are fully traceable and MTRs are available upon request at no additional charge. As an added feature, all C&C Pup Joints are banded. To ensure traceability, serial numbers are also stenciled into the iron itself.

C&C keeps large inventories of standard length NPST Pup Joints in 2" and 3". We also carry a selection of 2" Integral Pup Joints. In addition to our immediate stock, C&C specializes in made to order items such as NACE Pup Joints, custom lengths, and unique sizes.

1" Figure 1502 and 4" Figure 1002 Pup Joints are made to order items with a minimal turnaround.

Non-Pressure Seal Pup Joint (NPST)

Nominal Size (in)	Figure	Length (ft)	Part No.	Weight (lbs)
2"	1502	1'	PJ-2N115	24
